I. Definitions

Alternative Educator Preparation Program – a post-baccalaureate preparation program designed for individuals seeking licensure as a teacher whose undergraduate, or post-baccalaureate degree is not in educator preparation.

Educator Preparation Provider (EPP) – institutions or organizations that offer teacher preparation programs. Educator preparation providers can be Institutions of Higher Education (IHEs) offering traditional programs, IHEs offering Alternative programs, or organizations not based at IHEs offering Alternative programs.

Educator Preparation Programs – individual license areas offered under the auspices of each EPP.

Programs offered by this provider are on the [ADE Routes to Teacher Licensure/Preparation Web Page](#) under the heading “Find an Approved Educator Preparation Program”.

HEA Title II (Title II of the Higher Education Act of 1965) – In October 1998 Congress reauthorized the Higher Education Act, in which, Sections 207 and 208 of Title II reflect the efforts of States, IHEs, and their school district partners to improve the recruitment, preparation, and support of new teachers. The annual federal HEA Title II Report includes requirements, conditions, and specifications related to teacher preparation and licensure for EPPs and states.

IHE – Institution of Higher Education (college or university).

Licensure Tests – examinations taken by educator candidates before entering the teaching profession (required by many states, including Arkansas) as part of the licensure process.

Program Candidate – an individual who has been admitted into an educator preparation program.

Program Completer – a person who has met all the requirements of a state-approved educator preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript, or other written proof of having met the program’s requirements.

Traditional Educator Preparation Program – an undergraduate or graduate program of study at an IHE that prepares candidates for licensure as a teacher (or other school professional) and includes a supervised clinical experience (student teaching).

III. Addressing Shortage Areas

Does the EPP have a plan for addressing geographic or academic shortage areas, and if so, what are the goals in that regard?

EPP response:

- Conduct a formal survey of identified “potential employer districts” regarding teacher shortage areas and other teacher workforce needs; use findings to revise EPP recruitment plan.
- Emphasize Arkansas teacher shortage areas in presentations and materials for both prospective and current students.
- Emphasize education as a service profession and teaching as a position of servant leadership in presentations and materials for both prospective and current students.
- Conduct feasibility study and needs assessment to plan for the development and approval of new licensure and endorsement programs, such as science, music, mathematics, and special education.

V. Licensure Test Pass Rates

The ETS® licensure tests reported here are those assessments that are required for educator licensure in Arkansas. Pass rates reflect the tests taken between 9/1/16 and 8/31/17, and the numbers passing each test. If a candidate took a test more than once, only the highest score is reported. Arkansas EPPs had the opportunity to verify that their candidates took the tests listed for their institution, and that those candidates were prepared in the content area.

VI. Novice Teacher Survey Data - Perceptions of Preparation

First-year teachers complete a Novice Teacher Survey at the end of their first year of teaching to identify perceptions of their educator preparation experience based on the four TESS “Framework for Teaching” domains. The 2018 questions and results are presented below.

Respondents were asked to rate the statements based on how well they felt their EPP prepared them in each category for their first year of teaching. SCALE: 1 = Not prepared in this area 2 = Minimally prepared 3 = Adequately prepared 4 = Well prepared

Domain	Category	CBC Scores (n=4)	State scores (n=921)
1a.	Knowledge of content and pedagogy	Scores are not published if n < 10	3.17
1b.	Knowledge of students		3.25
1c.	Instructional outcomes		3.05
1d.	Knowledge of resources		3.07

VII. Employer/Supervisor Survey Data

The supervisors of first-year teachers complete a “Supervisor Perception of Novice Teacher Preparation Survey” at the end of the novice teachers’ first year of teaching. The purpose of the survey is to identify supervisor perceptions of their novice teachers’ educator preparation experience base on the four TESS “Framework for Teaching” domains. The spring 2018 questions and results are presented below. For logistical reasons, traditional and alternative preparation programs could not be separated.

Respondents were asked to rate the statements based on how well they felt EPPs prepared teachers in each category for their first year of teaching. SCALE: 1 = Not prepared in this area 2 = Minimally prepared 3 = Adequately prepared 4 = Well prepared

Domain	Category	CBC Scores (n=2)	State scores (n=443)

VIII. Partnerships for Clinical Preparation

Does the EPP have P-12 school and/or community partnerships? If so, please describe how the partnerships establish mutually agreeable expectations for candidate entry, preparation, and exit, to ensure that theory and practice are linked, and share accountability for candidate outcomes.

EPP response: The EPP has established formal partnerships articulated with signed MOUs with 5 districts representing 28 schools. Verbal partnership agreements exist with 2 additional districts representing 11 schools, and the EPP is in the process of formalizing these partnerships. Additionally, the EPP partners with the local educational service cooperative, which serves 29 districts. Administrators and teachers from partner schools are invited to share in EPP decisions and input is gathered from stakeholders through school visits, surveys, and meetings of the EPP's Teacher Education Advisory Board.

IX. Minority Recruitment

Are there strategies in place to increase the number of minority teachers? If so, please describe these strategies.

EPP response:

- Increase EPP recruiting (promotional materials, campus visits) at 30 Arkansas public high schools identified in the institution's recruitment plan as recruitment partners that have non-white student populations >55%.
- Establish new institutional scholarship(s) available to EPP candidates from diverse backgrounds.
